GONCHAROV ILYA

FRONT-END DEVELOPER

ABOUT ME

Hi! I am a React developer. I am well versed in the language, every day I develop my own projects or study new language features. I can work as an independent unit in a team. I know a lot, what I don't know - I will find, what I won't find - I will competently ask my colleagues. I know how to work in a team and really want to develop professionally.

WORK EXPERIENCE

Project work / private practice / freelance (PART-TIME) FJanuary 2023 - Till now

◆ Developed and maintained adaptive web applications using React.js, ensuring the smooth operation of users on various devices.

◆ Implemented state management solutions usingRedux, improving the performance and usability of applications.

◆ Modern front-end build tools such as Webpack and Babel were used to optimize the development workflow.

◆ Integrated third-party APIs for extracting and displaying dynamic data, extending the functionality of web applications.

◆ Thorough testing was carried out using the Jest and React testing library, which guarantees the reliability and stability of applications.

◆ Reusable user interface components have been developed and implemented to help create a consistent and visually appealing user interface.

◆ Worked closely with designers to transform wireframes and layouts into interactive and functional web pages.

◆ Collaborated with the developers of the backend to integrate interface components with server logic, ensuring an uninterrupted data flow.

technologies:

√ React/Redux/REST-API √ Redux-Thunk √ TypeScript/JavaScript √ Storybook √ Axios/Fetch √ React-redux √ React-Router v.6 √ React-hook-form √ Formik √ React-hooks √ HTML5 √ CSS3/SCSS √ Tailwind/Style-Component √ Git √ Unit-testing

IMEGA - search for medicines with the best price
May 2021 — January 2022

Developed the user interface of the application:
◆ Reusable components,   ◆ Modal windows,   ◆ Loading indicators,
◆ Filtering by position.
technologies: √ React, √ Redux, √ Styled-components

IT-INCUBATOR 2022

Front-end developer with teamwork experience in creating applications by using React, Redux TypeScript and other technologies

Moscow University of Finance and Industry

Thesis: Development of a multi-level security system. For the object "LLC ..."
